

## **Newark Museum Internship Overview**

The Newark Museum offers year-round internship opportunities in all of its major departments including Curatorial, Registrar, Education, Marketing/Public Relations, Exhibition Design and Library. Interns work on an array of projects and depending on academic training, experience and stated interest, are assigned to a specific staff member, or in some cases, to a department at large. Applicants of all educational and career backgrounds are encouraged to apply.

The Newark Museum accepts applications for the program throughout the year. Candidates must submit an application by the deadlines listed below in order to be considered for the time frame indicated.

### *Internships during the Academic Year*

Internships are available to students and recent college graduates throughout the academic year (January-March and September-December).

### *The Summer Internship Program*

Each summer, a limited number of internships are awarded to students who have completed at least one year of college. In addition to working within a museum department, interns also take part in a more expanded orientation process, learning in-depth about museum careers, as well as other art, science and education opportunities at institutions in the city of Newark and throughout the state. *Summer internship materials must be received no later than March 31, 2017.*

The Program will take place June 19-August 11, 2017. Internships are usually four days per week and combine hands-on experience within a museum department with seminars and field trips. Summer internship materials must be received no later than March 31, 2017.

All questions regarding the internship program should be forwarded to [internprogram@newarkmuseum.org](mailto:internprogram@newarkmuseum.org).

### *Newark Museum*

Founded in 1909 by John Cotton Dana, the Newark Museum is a world-class museum of art, science and education and the largest of its kind in the state. It is also among the top ten largest art museum educators in the nation, according to the Association of Art Museum Directors. The Museum houses world-renowned collections of American art, Tibetan art, Asian art, African art, Decorative arts, Classical art and the Natural Sciences. It also includes the Ballantine House, a restored Victorian mansion. Additionally, Science facilities include the Victoria Hall of Science, featuring the *Dynamic Earth: Revealing Nature's Secrets* and the Dreyfuss Planetarium. The Newark Museum has over 600,000 visitors annually. For more information, please visit the Newark Museum Web site at [www.newarkmuseum.org](http://www.newarkmuseum.org).
