

## **FALL 2017 DAY TRIPS**

(Subject to Change)

**WE ARE READY!**

### **LONG ISLAND'S GOLD COAST** **Sagamore Hill and the Nassau County Museum of Art** **SATURDAY (Yes, Saturday!) September 9, 2017** **\$145.00 per person**

This truly special day starts at **Sagamore Hill**, the family home of **Theodore Roosevelt**, the 26<sup>th</sup> President of the United States where we have a tour with a National Park Service guide. Sagamore Hill was the home of Teddy and Edith Roosevelt and is an example of the good life as it was lived in the United States in the late 19<sup>th</sup> Century. The Victorian style, 23 room house has been closed to the public since 2011 for a ten million dollar restoration of the historic property and was recently reopened. The Roosevelts lived in the house after he served as President and Teddy died in the house on Jan 6, 1919. He is long gone but the house lives on. It affords us an enticing entryway into the past, as well as a very personal glimpse of our 26<sup>th</sup> President's life. After our visit, we enjoy luncheon at **The Jolly Fisherman Restaurant**, a long time Long Island dining destination. In the afternoon we visit the **Nassau County Museum of Art** for a *self-guided tour* of the museum, gardens and sculpture garden. Ranked among the nation's largest, most important suburban art museums, Nassau County Museum of Art is housed in the former Frick Estate, a spectacular property in the heart of Long Island's fabled Gold Coast. Their featured special exhibition is *New York, New York* showing how artists have been inspired by and have portrayed New York City for more than a century. From the extraordinary to the everyday, *New York, New York* reveals the daily life of the city's inhabitants at work, in their homes, on the streets, and at leisure enjoying the parks, beaches clubs and bars of the city from the early years of the last century almost to the present day.

**BETHLEHEM IS BOOMING!**  
**Strumming and Strolling in Pennsylvania's Lehigh Valley**  
**Thursday, September 14, 2017**  
**\$145.00 per person**

Travel to historic **Nazareth** named for the Biblical town of Nazareth for our guided visit to the historic **Martin Guitar Company**, founded in 1833 and operated by the Martin family for six generations. The list of Martin players past and present reads like a who's who of the musical world. We enjoy a guided tour of the factory floor to see how guitars are crafted. Follow a guitar from rough lumber to a finished product which requires more than 300 steps to complete. We visit its **Guitar Museum** which brings together music history, culture and craftsmanship. In the Pickin' Parlor you can play high end and limited edition guitars.

Then on to **Bethlehem**, a city founded by Moravian settlers, named after the Biblical city of Bethlehem and birthplace of Christ for lunch at the sleek, modern **blue grillhouse**.

We start our afternoon with a docent-led tour of the **NEW National Museum of Industrial History** located in the former Bethlehem Steel Factory (1857-2003). The museum contains a collection of artifacts from the textile, steel, iron and propane gas industries. It is an affiliate of the Smithsonian Institution and seeks to preserve, exhibit and interpret industrial artifacts in the context of our nation's industrial heritage. After the museum visit we will **ride/stroll through Bethlehem** with our guide and see how the former factory town is transforming itself into a tourist destination.

**A NEW YORK TRIO OF TREASURES**  
**International Center of Photography**  
**The New Museum**  
**The Rubin Museum of Art**  
**Thursday, October 12, 2017**  
**\$145.00 per person**

It's time to visit New York and explore some of the wonderful museums that are just a little off the beaten path. We start at the recently relocated **International Center for Photography (ICP)**. Their exhibition *Designing the Future* features photographs created by students in ICP's Community Partnership with High School of Fashion Industries. Then on the nearby **New Museum**. Founded in 1977, the museum is a leading destination for new art and ideas and Manhattan's only dedicated contemporary art museum. Here is your chance to view art that is not easily assimilated into the conventional exhibition structure of the traditional art museum. Lunch is at the popular Chelsea restaurant **Le Zie 2000** to dine on its excellent Venetian cuisine. After lunch we have a docent-led tour to the **Rubin Museum of Art**. The Rubin presents art that traverses Asia's diverse cultures, regions, and narratives. The Museum's special exhibitions celebrate art forms that range from ancient to contemporary, including photography and multimedia, while its permanent collection galleries are focused primarily on art from the Himalayan region. We will tour exhibitions including *The World Is Sound* employing sound in new ways to animate and intensify the experience of art in the Rubin's collection.
